

186

A technical line drawing of a faucet in profile. The drawing shows a vertical stem with a handle on top and a curved spout on the right. A vertical dashed line indicates the central axis of the stem. Two dimension lines are present: one vertical line on the left side of the stem, labeled '186', indicating the height from the base to the top of the handle assembly; and one horizontal line at the bottom, labeled '156', indicating the distance from the central axis to the right edge of the spout's base.
