

A technical line drawing of a faucet. The drawing shows a vertical stem with a curved spout extending to the right. At the top of the stem is a handle and a small cylindrical detail. A vertical dashed line indicates the central axis of the faucet. Two dimension lines are present: one vertical line on the left side with arrows at both ends, labeled '330', indicating the total height from the base to the top of the handle; and one horizontal line at the bottom with arrows at both ends, labeled '156', indicating the width from the central axis to the right edge of the faucet's base.
